H. E. Wodehouse, Lam Sz. gardener, and Shui Tak, boarding house master, were sharged with detaining a coolie in a boarding house on the Prays, for the purpose of emigration. From the evidence it appeared that the complaigant came down from Canton of his own free will intending to proceed to Singapore, but had been got at by a friend in Hongkong, a private coolie, who persuaded him not to go to Singapore. Some difficulty seems to have arisen with regard to refunding the money expended in bringing the complainant to Hongkong and keeping him here. The Magistrate found the charge proved, and bound over the accused in two sureties of \$50 each to be of good behaviour for six months.

Therefore, under ordinary oircumstances, with your back to windward you will have the centre on your left 2 or 4 points in front. But to prevent fatal errors which might ensue from accepting too confidently this estimation as an invariable one, we have insisted on its roughness, and settled the circumstances according to which the angle between the direction of the wind and the radius vector is changed. These circumstances, according to our observations, are the distance to the centre, the position shead or in year of it, and E. D. We have called to mind, and urged

the true rais of heaving to, viz., where you have signs of a typhoon, heave to for the purpose of fixing the bearing and the trajectory of the typhcon, and of taking for bringing the ship away from the centre; In the circumstances under consideration, it is evident that a tendency of the wind to voer from North-East to East would show that the typhoon is crossing the Channel travelling Westward ; while a tendency to back would show that it has recurred near the South point of Formoss.
